THE EASTER STORY

On Good Friday, unhappy Pilate sat in judgment on Jesus. He was troubled at the trumped - up demands for the Saviour's crucifixion. "I find in him no fault at all," he told the accusers. But, seeking to appease the priests, he gave in and turned Jesus over

And so Jesus died on the cross, between two thieves crucified with Him. And Joseph, the rich disciple from Arimathaea, comforted Mary and the other grieving women. Jesus was laid to rest in Joseph's own sepulchre, newly hewn from stone. A great rock was rolled up to seal the entrance.

Luck for 168 Years

Editorial - BY BRUCE BIOSSAT

Thus far Congress has not shown much enthusiasm for proposals to fill the serious constitutional gap regarding presidential disability. The lawmakers' coolness reflects poorly on their sense of responsibil.

Speaker Sam Rayburn, usually quite stirred by serious matters, dismissed the problem of what happens when a president becomes too ill to govern: "We've got along for 168 years, and I don't think many bad things have happened.'

Rep. Emanuel Celler, New York Democrat and chairman of the House Judiciary Committee hearing disability plans, seems to think ident's health."

ers in his administration more the truth. conscious of the problem. But the we have muddled through for 168 years is sheer luck.

The menace of atomic war and the growing incidence of mental illness are two reasons why we ought not to go on counting on mere good fortune.

As things stand, the Constitution says the vice president shall assume the powers and duties of the presidency if the president himself cannot perform them. But it doesn't define disability nor say who Ore.) has asked for an investigashall decide when the chief execu- tion. tive cannot function.

tion of Jehovah's Witnesses, in announcing the contents of the letter, cited the wholesale arrests and mass movement of Jehovah's Witnesses to slave labor camps in Siberia. "For many years now," Mr.

Partain quoted the letter as saying, "Jehovah's Witnesses within the Soviet Union have endured great difficulties and heavy persecution. They have constituted committees and delegations from among their own ministers for the purpose of registering their religious organization according to the statutes in force, but on each occasion they have been rebuffed and instead of being allowed to 9:00-Lamp Unto My Feet, CBS register their Christian organization they have had ministers in the delegations arrested."

The letter was written to accompany a composite petition that had been adopted over a per-12:30-What One Person Can Do iod of nine months by a total of 462,936 of Jehovah's Witnesses, meeting in 199 assemblies throughout the world. It called attention to the 7,000 Jehovah's 3:30-World News Roundup, CBS Witnesses known to be in slave camps in the Soviet Union and, requesting their release, proposed that a delegation be permitted to proceed from the Society's headquarters in Brooklyn, N. to Moscow to fully acquaint the Soviet government with the true aims and purposes of Jehovah's Witnesses.

> Asserting their purpose was to inform the world of the bitter Christian persecution that still rages behind the Iron Curtain, Mr. Partain revealed, "A full report is being published in the April 15 issue of The Watchtower, official magazine of Jehovah's Witnesses. This issue will have a stepped-up world circulation of 10,000,000 copies in 45 languages, which is three times normal cirthis significant report."

AMERICA'S ON THE MOVE! In 1900, factory sales of passenger automobiles in the U.S.A. totalled fewer than 5,000. Today, it is estimated that more than 50 million motor vehicles ply our highways; that this is only a foretaste of things to come. At the end of 1955, the books of the nation's banks showed more than \$5 billion in outstanding credit for auto purchases. Ever alert to the changing needs of the nation, banks have played-and continue to play-an important part in America's unparalleled move to motorization.

Register Opens Bureau for Carrier Mills' Convenience

The former office of The Carrier Mills News has been rented by The Daily Register as a Carrier Mills Bureau so that adequate coverage of news may be given to the Carrier Mills area.

Miss Pat Flynn will be editor and manager at the bureau. The telephone will be the same as heretofore-Carrier Mills 2942, and will continue to be listed under Carrier Mills News

until the new directories are printed. Spot news from the Carrier Mills area will be covered in regular editions of The Register, as it is carried from other parts of the county and the area. News of more particular interest to the Carrier Mills area alone will be carried in a special section,

similar to the one printed today. Reporters who have been making Carrier Mills their "beat' will continue their calls, but in event they are missed, Miss Flynn will be pleased to accept news items or news tips.

She is especially interested in social and personal items, and will continue to handle the contributions of correspondents in the

Kenneth Hart will continue as The Register's distribution representative in the area, and all subscription matters should be referred to him. Those who have heretofore been giving him news items are requested to call the News Bureau, or deliver

THE CARRIER MILLS REGISTER

CARRIER MILLS people joined together last week to bring enjoyment to a couple of their less fortunate neighbors and friends.

A brand new portable TV, with antenna for both the Harrisburg and Cape Girardeau TV stations, has been installed in the home of Miss Agnes Burns, at left, a semi-invalid for almost ten years, and her sister, Mrs. Zella Burns Fritts, who has cared for her sister since the death of their parents, Mr. and Mrs. Andrew Jack Burns. A neighbor, Mrs. Opal Morse, sparked the idea and stated she found the people of Carrier Mills most anxious to contribute to a cause that would bring so much enjoyment to these well known residents of their community. Miss Burns, who is able to sit in a chair for only short periods of time, and Mrs. Fritts today said to a Daily Register reporter "Please tell everyone how much we appreciate their kindness. Thanks and God bless them." The TV set is placed so that Miss Burns may watch her favorite pro-(Daily Register Staff Photo)

To Ask Increase in Fourth Class Mail,

WASHINGTON (U.P.) - The Post Office Department notified the Interstate Commerce Commission today it will ask soon for an increase in parcel post and other fourth class mail rates.

It gave no figures but said Postmaster General Arthur E. Summerfield will submit specific requests "within a reasonable period of time." The department's general counsel, Abe McGregor Goff, told the ICC that about \$4,300,000 of the annual postal deficit is due to increased costs of handling parcels and catalogues.

Under the law, the ICC sets fourth class mail rates. The post office also is asking Congress for Pruett Building other rate increases totaling 462 million in the fiscal year starting July 1 and \$527,500,00 by 1961.

NATIONAL FOREST TIMBER FOR SALE

All of the merchantable timber marked or designated for cutting on a net area of approximately 7,900 acres on several separate plantations located throughout the Elizabethtown, Jonesboro, and Vienna Districts of the Shawnee National Forest in Southern Illinois, estimated to be 50,400 cords of shortleaf, loblolly, pitch and red pine pulpwood more or less.

No bid of less than \$2.00 per un peeled cord for stumpage and reguired deposits for sale area beterment will be considered for pine pulpwood. The rate bid will apply for all pulpwood scaled or released for cutting before December 31 1961. Prior to December 31, 1961, and at each three year interval thereafter the total rates will be redetermined but in no event will the sum of the rates for stumpage and sale area betterment be less than the rate bid.

\$1,000.00 must be deposited with each sealed bid to be applied on the purchase price, refunded, or retained in part as liquidated damages, according to the conditions of sale. At the time of the final award of the timber sale, the successful bidder will be required to furnish a satisfactory bond in the sum of \$6,000.00. After final award of the sale, the purchaser will make subsequent payments upon request computed on the following basis: The dollar value of the minimum advance payment, permissive suspension balance to be maintained ahead of cutting, and the maximum advance balance which may be required will be based on the anticipated daily cutting rate and the average value per unit of measure which the purchaser agrees to pay.

Sealed bids will be received by the Regional Forester, 623 North Second Street, Milwaukee, 3, Wisconsin, up to 2:00 P. M., May 17, 1957, and will be opened immediately thereafter. The right to reject any and all bids is reserved. Full information concerning the character of the timber, conditions of sale, and the method of bidding may be obtained from the Regional Forester, Milwaukee, 3, Wisconsin, or the Forest Supervisor, Harrisburg, Illinois.

line and diesel engines; and diesel and gasoline fuel injection systems. All of these

companies have been associated for years with quality, precision manufacture

Canada, Mexico and Cuba. Studebaker-Packard Corporation in signing the agreements will now make available to its dealers a full line of domestic and imported sports cars, convertibles, sedans and station wagons-ranging in price from under \$2,000 up to \$13,000 - gasoline and diesel powered trucks and all-wheel drive utility vehicles.

Mercedes-Benz cars and distinctive Mercedes-Benz features - such as fine coachwork, swing axles and transmissions - will be exclusive to Studebaker-Packard.

The Utica-Bend Division of Curtiss-Wright Corporation, now building diesel engines for the U. S. Navy, will import and manufacture Mercedes-Benz diesel engines and diesel and gasoline engine fuel injection systems under the agreements. The engines will range from a 4-cylinder model of 25 h.p. to a supercharged 8-cylinder model of 600 h.p.

Further agreements are being negotiated between Daimler-Benz and Curtiss-Wright Corporation for the interchange of rights for the manufacture of aircraft
